- Packaging
- Sales promotion
- Disposal
- Quality control
- Medical sample dispatch
- Advertising material warehouse and dispatch

## Customized logistics solutions for your products.

Logistics solutions for the health care sector are associated with special requirements for the entire process chain.

As a specialized service provider, we use a multi-level quality assurance system that includes GDP certification and comprehensively documented SOPs in addition to the latest DIN 9001:2015 certification. In order to meet your individual requirements in the best possible way, we also have a wholesale license in accordance with Section 52a, para. 1, of the German Medicinal Products Act (AMG) and, if you wish, can offer you numerous other value-added services such as first-level support from our customer service center.

Together with you, we develop solutions that are just as individual as your requirements – from transport to full-service logistics.

**Krieger Pharmalogistik.**

Reliability at the highest level

**FOCUS ON NARCOTIC SUBSTANCES.**
